

### **SPECIFICATION**

Please amend the specification as follows:

On page 22, line 6:

Figure 7a shows an exemplary scaled composite image 702 on a display 700. In the present embodiment, scaled composite image 702 is produced by rendering images 902-906 to generate a composite image (step 505) which is scaled (step 506), for display on a limited-display computing device.

On page, 24 line 4:

In one embodiment, when images 942-957 are rendered to generate a composite image (step 505) which is scaled (Step 506), an exemplary display 780 results that can be displayed on a limited-display computing device. Display 780 includes scaled composite image 703 of Figure 7b. It can be seen that scaled composite image 703 is similar to image 603.

On page 24 lines 19-21 :

Figure 8 shows an exemplary display generated by performing steps 501-508 of Figure 5 so as to generate exemplary display 800. In the present embodiment, it can be seen that scaled composite images 702-703 resemble the original displayed images that made up header 602 and navigation bar 603. Text **[[804]]** 704 is displayed on the remainder of the screen. In the present embodiment, text **[[804]]** 704 is generated in step 507 of Figure 5 by transcoding the remainder of HTML page 600 using normal transcoding methods. In the present embodiment, normal transcoding methods include the display of text only using a “best guess” process.

Application No.: 09/844,925  
Amendment dated: January 10, 2005  
Reply to Office Action of: August 24, 2004

On page 25 lines 4-6:

Referring still to display 800 of Figure 8, it can be seen that scaled composite images 702-703 give a look and feel to image 800 that is similar to the look and feel of the images that would be displayed on a full size display (e.g., header 602 and navigation bar 603). However, the resulting display 800 includes extensive text 804 which is viewed by scrolling down until all of text 804 has been displayed. However, the resulting display 800 includes extensive text **[[804]]** 704 which is viewed by scrolling down until all of text **[[804]]** 704 has been displayed.
